Subject: Meeting Minutes [REDACTED]

Met [REDACTED] General Manager today.

Java is not used in Digital Camera today. But [REDACTED]
[REDACTED]

<Attendees>

- [REDACTED]
- Oracle: Uno-san, Fujita-san, Gen-san

<Current Status>

- [REDACTED]
[REDACTED].

- [REDACTED]
[REDACTED]

- There is no concrete plan to develop successor model.

- [REDACTED]
[REDACTED]

[REDACTED]

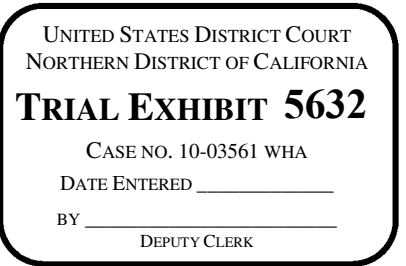

<Android vs Java>

- [REDACTED] understands Java is better than Android, considering performance, reliability, number of libraries, asset portability, etc.

Ø He also sees Android frequently updates its version which [REDACTED]
[REDACTED]
[REDACTED]

- [REDACTED] JavaFX. This can be also good tool for GUI building.

Ø Will find some time to show the demo in the near future. (Maybe at [REDACTED] or other Event)

<Application>

-

Ø What application would be appropriate for camera is a question.

-

Telecommunication is and will be an important function for Digital Camera.

Ø

-

Ø iOS, Android have good infrastructure in that sense. Even SNS like Facebook is well used for Android.

Ø

-

-

<Actions>

-

-

We encouraged him to evaluate Java under the Evaluation License.
